### 1130226 高中職生中翻英短文翻譯參考答案

If our bodies are not strong, we will be blunt to do things. At the same time, we also lack enough energy to study. But why are our bodies not strong? Because we lack exercise. For this reason, we must often take different kinds of exercises. Exercise makes us strong and keeps diseases away. It also helps us develop relationships for most sports are played by team.
