Most health care careers require education beyond high school. This education can last from two to as many as ten years. People who choose a health care career for themselves are willing to invest in the additional education.

The job market for health care professionals varies from place to place. In the country, almost every health care professional can find a job because the demand is great. In large cities where many people like to live, it is harder to find a job. In general, finding a job in health care is easier than in other professions. In addition, the job market will be even better in the future because the population is getting older.

大多醫療保健職業需要高中以上的學歷。這種教育可以持續至少兩年
到至多十年。為自己選擇醫療職業的人都願意投資額外的教育。

醫護專業人員的就業市場因地而異。在鄉下，幾乎每個專業醫護人員
都能找到工作，因為需求量大。在許多人喜歡居住的大城市，很難找
到工作。一般而言，在醫療行業要找工作比其他職業還要容易。此外，
由於人口老化，此工作未來的就業行情會更好。
