台灣應該有第四座核力發電廠嗎？人們討論這個議題已數年了，有些人贊成這個想法，因為他們認為核力發電廠是製造足夠電力給台灣人的最好方式，但是有些人對於這議題的想法不同，他們擔心假使未來發生任何問題的話，台灣將會變為一個非常危險的地方。讓每個人都有相同想法是件不可能的事，但是有件事人們的想法是相同的：每個人都厭惡核力發電廠靠近他們家，沒人認為居住在靠近核力發電廠是安全的。

核力發電廠 nuclear power plant

電力 electricity

1100705 大專院校畢業生 中翻英短文翻譯 參考答案

Should Taiwan have the fourth nuclear power plant? People have talked a lot about this issue for years. Some people welcome the idea because they think nuclear power is the best way to produce enough electricity for people in Taiwan. But some think differently about the issue. They are worried that Taiwan will become a very dangerous place if any problem happens in the future. It is impossible to make everyone think the same way, but people have the same idea about one thing: everyone hates the idea of having a nuclear power plant near their houses. No one thinks it is safe to live near a nuclear power plant.
