　　上週末我無意間看到一張抹香鯨的照片，那是一則有關抹香鯨的新聞，我看完新聞之後，非常沮喪。那隻鯨魚死了，被海浪從海洋沖刷到河流，接著躺在岸邊。當科學家剖開死亡的鯨魚時，他們發現在牠的胃裡有許多塑膠廢棄物。我認為這隻鯨魚是被生活在地球上的所有人類殺死的，人們丟垃圾到海洋，海洋動物吃了它們，然後就死了。我希望我們能夠有更多清理海洋的計畫，然而，第一步拯救動物、海洋，以及地球的實際方法，就是減少製造垃圾的數量。

抹香鯨　　sperm whale

Last weekend, I accidentally saw a picture of the sperm whale. It's a news about the sperm whale. I felt very depressed after I read it. The whale was dead and washed by waves from the ocean to the river, and then lay on the ashore. When scientists cut the dead whale, they discovered that there were many plastic wastes in its stomach. I think this whale was killed by all of the people who live on the earth. People throw trash to the ocean, and the sea animals eat them, and then die. I hope we could make more plans to clean the ocean. However, the first true way to save the animals, the ocean, and the Earth is to reduce the amounts of making trash.
