我喜歡看有關動植物的書，這讓我在自然科學中增廣很多知識，也讓我覺得大自然很有趣。我們這群書迷常常一起討論、分享自己的閱讀心得。不僅可以獲得寶貴的課外知識，也促進彼此間的友誼。有這群朋友真好！

### 1110822 高中職生 中翻英短文翻譯 參考答案

I have a group of friends who love to read books. They often stay in the classroom to read books at the break. Some of them will go to the library to borrow books and go back to read in the classroom, and some of them bring their own books to read or take the books from the book cabinets in the classroom. We often share the joy of reading together.

I like to read books about animals and plants, which helps me broaden a lot of knowledge in natural sciences and makes me feel that nature is very interesting. We, the book fans, often discuss and share our own reading experience. This helps us not only to gain valuable extracurricular knowledge, but also to promote mutual friendship. It's great to have this group of friends!
