Every festival has its special customs. In Taiwan, people believe that ghosts will come out from the Gate of Underworld(鬼門) to the living world and hang around in the seventh month of the lunar calendar. This month is also called Ghost Month(鬼月) for people in Taiwan. People usually burn ghost money for the lonely lost ghosts to spend and give them food and drinks to eat and drink in this month. These lonely lost ghosts have no friends and families to treat them in common days, so people take the place of their friends and families to do so in Ghost Month. During this month, people usually avoid doing some activities like swimming and moving until all the ghosts back to the underworld and the Gate of Underworld close. However, Ghost Month is never terrible because Ghost Month means to show the kindness.
