Scientists found a drawing of a cat on the side of a hill in Peru. The special is that the drawing is a 2000-year-old geoglyph which is the latest discovery in the Nazca Lines (納斯卡線).

The Nazca Lines are a collection of giant geoglyphs in Nazca Desert. They can only be entirely recognized when seen from the air. They were designated in 1994 as a UNESCO (聯合國教科文組織) World Heritage Site; however, the purpose of the geoglyphs are still a mystery to researchers.
